## THE AIM OF THE PROJECT

To give lights for the villages for the women to work and cook during dark time and for the children to study. To give healthy and reasonable lights instead of kerosene candles.

To train inhabitants of Benin to use sustainable and ecological systems. In the future to give work for local mechanics, to learn to install solarlight systems for themselves.

Financed by Finnish Foreign Ministry.

Project villages:  
Tokpa Aizo, Cotocoli, Hewe, Awlo
